LUXURY LINE
Marble Pool Table

Origine

The essence of Mother Nature captured in a timeless work of art

More than a simple billiard table, a true architectural sculpture.

ORIGINE is a commanding statement of style, designed to dominate the space and captivate the eye. Created for those who refuse to compromise between iconic design and pure entertainment, this masterpiece transforms any environment into a sanctuary of absolute luxury.

Starting with a single block of stone, the legs of this prestigious work of art are carved using high-pressure water jets, then finished by hand to smooth them and perfect every last detail.

Monolite

The extraordinary essence of the material

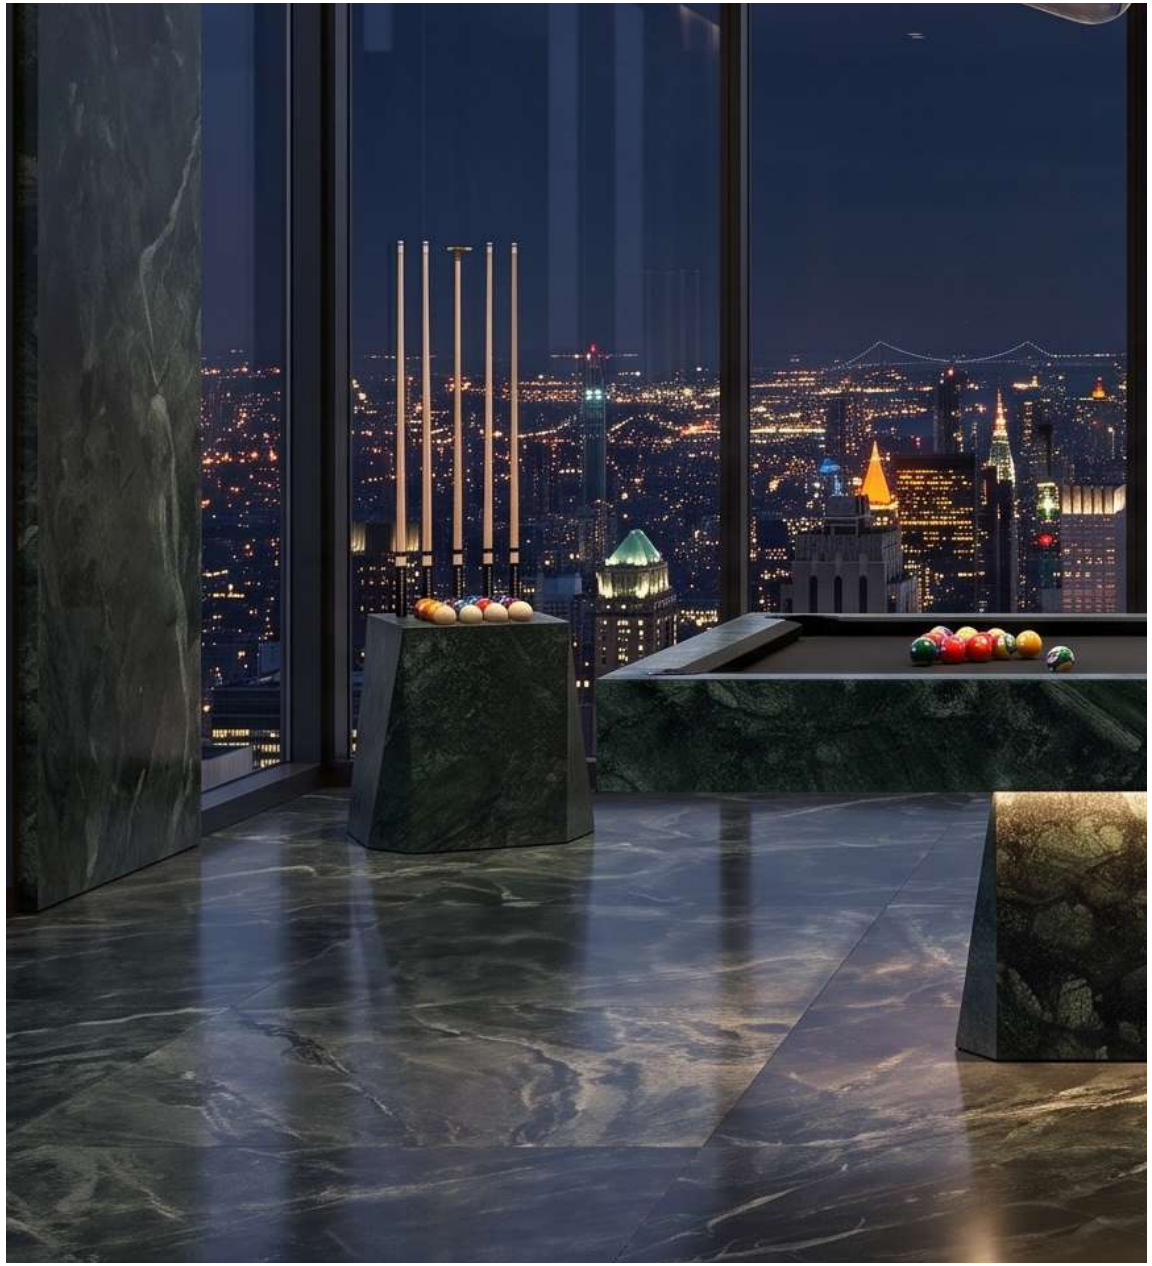

Monolite is a bold statement of style, designed to dominate the space and captivate the eye.
Created for those who refuse to compromise between signature design and pure entertainment, this masterpiece transforms any setting into a sanctuary of absolute luxury.

The solid base, defined by its geometric design and expertly illuminated to create a striking floating effect, supports a playing surface where the majesty of natural stone meets geometric precision.

Sospeso

Where the essence of marble meets the refined lightness of glass

It transforms the concept of entertainment into an authentic statement of style.

This billiard table is not simply a game table, but a contemporary sculpture designed to command the space with an unparalleled visual presence.

The bold encounter between the gravity of natural stone and the almost invisible lightness of glass creates a breathtaking optical illusion, giving life to a true masterpiece of design.

SUPERIOR LINE
Wood Pool Table

Eden

An original and striking sculpture made of wood and metal

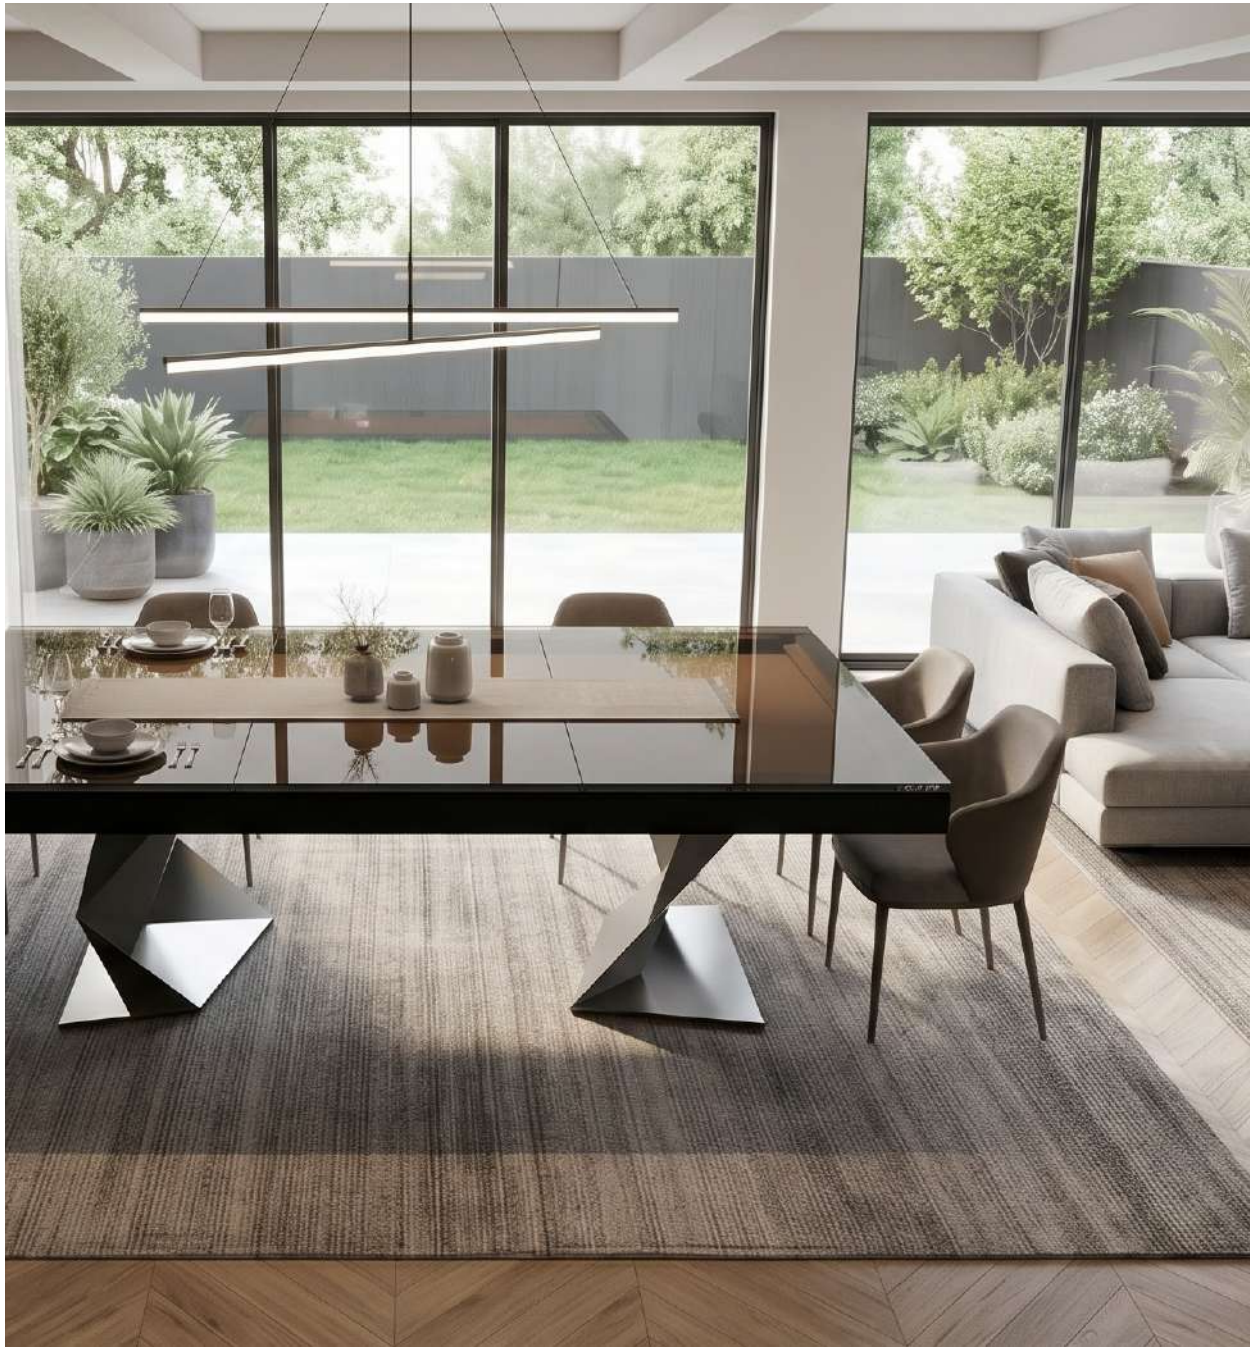

Eden is a high-end billiard table with a contemporary design, characterized by clean, sophisticated lines. Its solid frame is supported by two geometric metal legs that lend it an original, sculptural touch.

The legs are bent and hand-welded by one of our expert craftsmen using an extremely hard metal alloy. No machine is capable of creating such an object; it is the craftsman's expertise, therefore, that makes this piece unique and original.

Designed for modern and sophisticated spaces, this billiard table combines functionality and design, becoming the undisputed centerpiece of any room it occupies.

Opera

An original and striking sculpture made of wood and metal

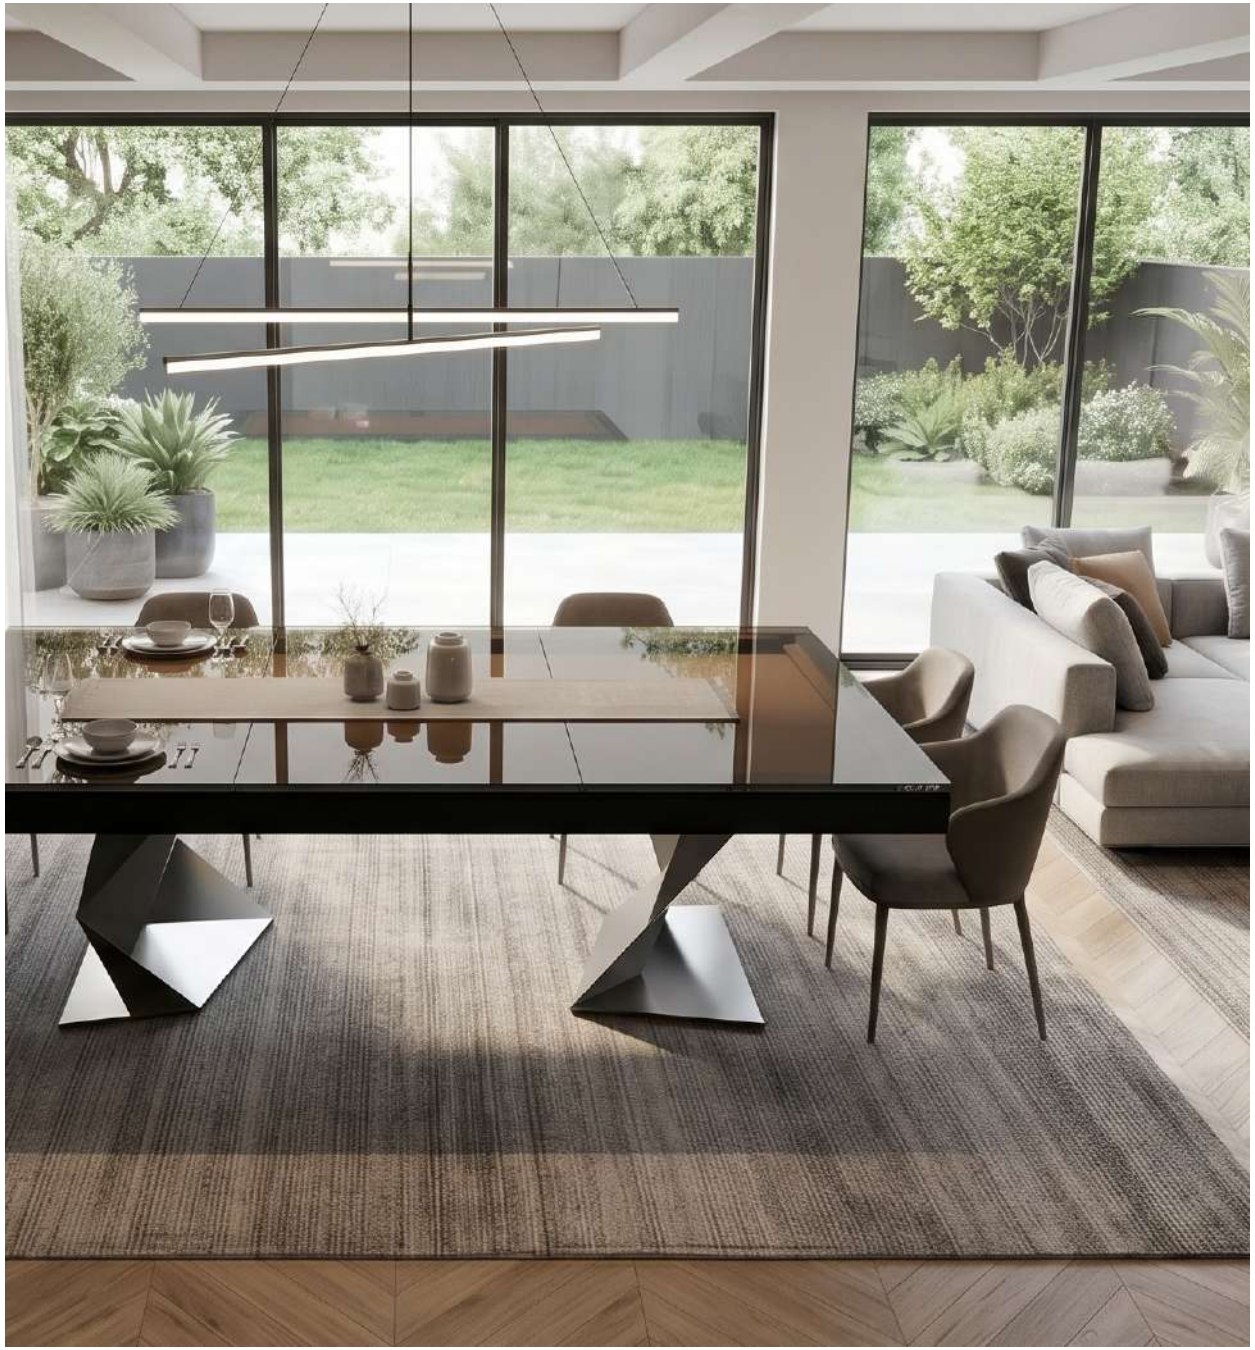

Eden is a high-end billiard table with a contemporary design, characterized by clean, sophisticated lines. Its solid frame is supported by two geometric metal legs that lend it an original, sculptural touch.

The legs are bent and hand-welded by one of our expert craftsmen using an extremely hard metal alloy. No machine is capable of creating such an object; it is the craftsman's expertise, therefore, that makes this piece unique and original.

Designed for modern and sophisticated spaces, this billiard table combines functionality and design, becoming the undisputed centerpiece of any room it occupies.
